PROM LIVERPOOL. Wednesday, 18th July Wednesday, 27th Aug

THE PARISH WILL CASE.

EXAMINATION OF DR. DELAPTELD CONTINU Q. In the course of these trials was the same sheet of sper, or different sheets of paper, used? A. I cannot v; I don't remember. Q. Was the signature, "H. rish," written for him more than once? A. I think so, ut don't remember distinctly. Q. Can you say what

stion; I do not remember sooing other persons write it. Are you sure that you wrote it yourself as all? A. In not sure; it was written by myself or some person, my presence. Q. Can you not remember whether all o copies you saw were written in your presence not? A. I. cannot. Q. Have you any present collection at what stage of any of these inter-ews a copy was brought in by any other person? No. Q. Were these trails made at interviews, on successive days; or was there an interval of a few days stewen them? A. On some successive days; whether terwards at intervals, my memory does not reach. Q. ou remember that those trails were repeated at some coessive days: have you any present recollection that ey were ever resumed after an interval? A. I have your presence at this set of successive interviews? I cannot fix any number; I will say from five twenty. Q. Could you not approximate morearly to the number by force of your memory? I could not. Q. Did Mr. Parish readily acquiesse in sur applications to him to write on these occasions? A. first, not afterwards. Q. Do you mean at the first interview or the very first attemp? A. At the first interview.—I may have been more—at the first interview.—About how long did it take him to write: "H. Parish' the time or times he wrote it? A. The answer to toat estion cannot be precise; possibly from thirty to sixty conds. Q. Were the letters large or small? A. About common size of his mode of-writing; perhaps a little yer. Q. Pid he, each time that he attempted and fail; get just as far as H. Par and there stop? A That is y impression, but I will not be procise on that point; it is more soft, but in the him of the process of his mode of-writing; perhaps a little year. Q. Pid he, cach time that he attempted and fail; get just as far as H. Par and there stop? A That is y impression, but I will not be procise on that point; it is sorting and the process of his mode of the process of his part, or did he stop one or more times and knue? A. His successful efforts were continuous. Ben he

od you as objects sufficiently raised from some sometimes and sentences, used for the blind, called letters technically, or in common parlance? As has far as I know. Q. Did you know, as early as hat there was such an article as single letters, on e piece of wood, or other hard substance, which be used to form words by persons who knew how

int be used to form words by persons who knew how form words, but could not write? A. Yes, such as dren use. Q. What did you call such things? A. I not know their name—they are child's toys. Q. I you ever order, recommend or refer to the use anything of that kind in trying to enable. Parish to form words or communicate his ideas? I knew from report only that some separate letters is used; whether I ordered them, I do not know. Q. iou do not recollect having ardered this experiment a solid letters, and your spuposition was that Mr. Ssh's failure to write, resulted from his hand becoming t, can you state why you did not advise a resort to expedient? A. I do not know that I did not advise and I can give no further answer to the question, except irready stated as to the report of others. Q. You used no early stage, counter irritants of the skin of the alpicate to state what that treatment was? A. Printly the application of ammonia in a liquid form placed stage, counter irritants of the skin of the to state what that treamment way? A. Prin pplication of ammonia in a liquid form places es and applied to the skin—probably, also blied to the skin; I recollect nothing else. Q the how and by whom, and at what time action was applied, and for what purpose? A

shy the application of ammonia in a liquid form placed compresses and applied to the skin—probably, also, stard applied to the skin. I recollect nothing else. Quee to state how and by whom, and at what time, too magnetism was applied, and for what purpose? A witness referring to a ir anscript from his ledger, says: as commenced on the first of September succeeding sittack, and applied until the 2d of October. I should be; it was applied by fir. Markoe, probably all the cit was applied by the instruments in which the cir of galvanism and of the magnet is combined, and granged as to transmit a succession of small shocks ugh the part, as made by Mr. Pike, the opticion, at the circle applied to the paratyzed limbs, it believe, also to the threat, for the purpose of seing the powers of motion in the paratyzed parts; it is applied by incipally to the right arm. Q Was this tro-magnetism applied to any other part than those have named? A. No. Q. Strychniew was applied as a given internally, not applied; at some time in course of the first year, I presume, and for the paragraed parts. Q. Can you state how often been gravinged parts. Q. Can you state how often been gravinged parts. Q. Can you state how often been gravinged parts. Q. Can you state how often been gravingly increased from the twelfth to the of a grain—this not from memory as to the doses, from my medical judgment as to what I must have, Q. About what time, according to your best rection, did this administration cease? A. I cannot release in the substance of the first the contracted condition came on a substance of the mat another, the contracted condition came on at a hister period, alternated occasionally, and then be first; the contracted condition came on at a hister period, alternated occasionally, and then be substant and eventually probably within that she did executed that you want for our processes of the first twelve months of his illness, ease to state now, if you are able to do so, more action, that was a processed of the sevential processes of t

brain healthy, would not such a result have been conclusive evidence, or nearly so, that his mind was sound at the time of his death? A. Not conclusive, nor nearly so. Q. Considering that Mr. Parish was sound in mental health up to 1849; that his aliments, as far as discoverable in life were known to you, do you mean to say that if to these facts were added a healthy brain, so found on examination after death, the evidence thereby afforded of his being of sound mind at his death would not be conclusive or nearly so? A. as the question is now put, the evidence would have been good to that amount, or nearly so; I now desire to state that if questions of this description are propounded A. As the question is now put, the evidence of desire to been good to that amount, or nearly so; I now desire to state that if questions of this description are propounded to me, I wish them to be put in writing, an t to be allowed time to answer them in writing. Q in Mr. Parish's case, dit you ever know, with absolute certainty, what parts came away in the sloughs of which you have spoken? A. Not with absolute certainty, but as far as could be learned by careful examination with the microscope by come tent persons. Q. Would not a post mortem examination have disclosed the facts on this point? A. It probably would. Q. If the organs of speech of Mr. Parish were in fact paralyzed, would evidence of that fact have probable here obtained in a post mortem examination? A. I
